Experience

Freecharge **Graduate Engineer Trainee** (July 2023 – April 2024)

- Gained hands-on experience with HTML, CSS, JS, ReactJS, Redux, TS, Yup, MUI, and REST APIs.
- Migrated Supernova Commercial to Subzero Design System, ensuring scalable UI.
- Delivered updates and changes for Merchant Finance product in production.
- Improved debugging using best practices and technical documentation.
- Learned Agile/Scrum with real-world sprints and ceremonies.

Freecharge **Software Developer Engineer** (April 2024 – Present)

- Delivered core modules **(Sales Order, Invoice, Reconciliation, Contact Management, Inventory & Multi-Account flows)**, contributing to successful **MVP-1 release** of SME Neobanking application.
- Migrated **80%** of codebase to **TypeScript**, improving type safety, reducing runtime errors, and enhancing maintainability.
- Migrated the application to **Rspack**, improving build performance by **20%** and reducing reload times.
- Implemented **Content Security Policy (CSP) headers** to enhance application security.
- Built 40+ scalable, reusable React components and refactored legacy class components to functional components, reducing boilerplate by **25%**.
- Integrated and optimized **REST APIs** with **Redux**-based state management for predictable and efficient data flow.
- Developed dynamic document generation using **EJS templates** for invoices and billing, including pagination and formatting enhancements.
- Improved performance and user experience through **lazy loading** & **skeleton states**.
- Strengthened application stability by resolving critical **QA/UAT bugs** and handling edge cases.
- Implemented **GTM integration** to enable analytics & product tracking.
- Authored technical documentation for **Zod integration** & **Lighthouse optimizations**, and conducted a **Knowledge Café session** for entire organization on **Module Federation** for knowledge sharing.
- Delivered features across multiple fintech products including **Merchant Finance**(loan application) , **SME Neobanking Orbit**, and **PACE** (NRI savings account opening) & **credit card acquisition**.
- Developed an internal **admin portal** to monitor and track the customer journey across the credit card application lifecycle.

Education

National Institute of Technology, Jalandhar July 2019 – July 2023 — CGPA: 7.63
Bachelor of Technology in Computer Science and Engineering

Projects

Personal Portfolio Website React, Material-UI, Vercel
A responsive React portfolio presenting projects and skills with a modern, user-friendly interface.

- Developed a responsive portfolio using React and Material-UI with reusable components.
- Designed interactive UI to effectively present projects and technical skills.
- Deployed on Vercel for optimized performance and seamless access.
- **Link**: https://react-portfolio-pink-two.vercel.app

Technical Skills

- **Technologies/Frameworks:** ReactJS, NodeJS, Material-UI, Formik, Yup, Redux, MongoDB, ExpressJS
- **Developer Tools:** Git, Bitbucket, Postman, Chrome DevTools,Rspack, Webpack/Vite, Jenkins,Lighthouse, GitHub copilot, Figma

Coding Profiles

- **Leetcode:** Sovled around 500+ problems
- **GeeksForGeeks:** Sovled around 218+ problems
